Message

Assalamualaikum Warahmatullahi Wabarakatuh and Salam Sejahtera.

First of all, I wish to congratulate the workshop organisers particularly, the course director, Professor Dato' Dr KL Goh and the President of the Malaysian Society of Gastroenterology and Hepatology, Professor Sanjiv Mahadeva, for organising this year's therapeutic endoscopy workshop - Endoscopy 2014 with the theme - 'The Best Tips in Therapeutic Endoscopy' As with previous years, "Endoscopy 2014" promises to be a highly beneficial and exciting course and I wish to welcome all participants.

I wish to specially welcome our international faculty who are all top world class endoscopists and especially Professor Gregory Ginsberg who will deliver the Distinguished Lecture. It is a great honor for the University and Malaya to have all of you come and participate in this workshop.

The University of Malaya is committed to excellence in every academic discipline in the University. We have spared no effort in providing support and encouragement for continuous improvement to achieve this lofty objective. With respect to GI endoscopy and gastroenterology, I am extremely pleased and proud to note the efforts that have been made throughout the past many years by Professor Dato' Dr KL Goh and his team that has earned them both local and international recognition as a Centre of Excellence and which has brought a good name to the University of Malaya and Malaysia.

As Vice-Chancellor I wish to express my commitment to the Faculty of Medicine and the University of Malaya Medical Centre to maintain its position as a premier medical institution. I also wish to congratulate and compliment the Malaysian Society of Gastroenterology and Hepatology and the Endoscopy unit of the University of Malaya Medical Centre for organising such high quality international endoscopy workshops. It is my hope that these workshops continue to be organised annually and that we see continued advancement in research and service, as well as in the sharing of experiences between us.

I wish all of you an enjoyable and fruitful workshop.

Thank you. With best wishes.

On behalf of the Faculty of Medicine, University of Malaya I bid you all a warm welcome to the Annual Workshop in Interventional GI Endoscopy, themed: "Therapeutic Endoscopy in the Global World". This live workshop that has been conducted since 1993 has been the hallmark of the Gastroenterology Unit of the Department of Medicine and one of the premier Continuing Professional Development programs conducted at our University. Attracting world renowned endoscopic specialists and researchers from around the world, this workshop is unique in that it provides local and regional practitioners access to the latest endoscopic theories and practices.

In the era of minimally invasive therapies and pressure to minimise duration of hospital stay, it is crucial that practitioners are continually updated with these advances in medicine. This workshop not only provides for this opportunity but also a chance to network with the best in the field and colleagues from around the world.

I wish everyone a successful workshop and hope that you also take the opportunity to visit our beautiful country and savour our delicious food.

Yours sincerely

Message

I am proud once again that the Faculty of Medicine and the University Malaya Medical Centre in collaboration with the Malaysian Society of Gastroenterology and Hepatology is organising yet again an important endoscopy workshop. This continues with the tradition of organising such top class endoscopy workshops since 1993 and I wish to congratulate the organisers.

I wish to welcome our distinguished guest faculty from overseas in particular, Professor Gregory Ginsberg from Philadelphia, USA who will deliver the Distinguished Lecture this morning. I am also honored to welcome our other guest faculty, all famous names in their own right: Dr Mitsuhiro Kida (Tokyo, Japan), Professor Michael Bourke (Sydney, Australia), Dr Yutaka Saito (Tokyo, Japan), Professor James YW Lau (Hong Kong, China) and Professor Jin-Hong Kim (Ajou, Korea). Last but not least we are also fortunate to have Mary Bong from Sydney, Australia as our special GIA faculty.

The University Malaya Medical Centre is committed to support such top-class events. I am truly proud that Professor Dato KL Goh and his team have continued with their efforts to organise such important events in the Faculty of Medicine and in the University in keeping with their status as a top unit in the hospital providing high standards of medical care and teaching. I hope they will continue with their efforts in the coming years.

It gives me great pleasure to welcome our distinguished faculty and all delegates to ENDOSCOPY 2014. This live G.I. endoscopy workshop conducted at the prestigious University Malaya Medical Centre has been a proud tradition of the MSGH for the last decade, forming one of the main educational activities conducted by the Society. Through this annual endoscopy workshop, The MSGH continues to cater for its multi-disciplinary members, consisting largely of Gastroenterologists, General / Gastrointestinal Surgeons and GI assistants from the allied healthcare professional group. The field of GI endoscopy continues to be practised by both Surgeons and medical Gastroenterologists in Malaysia, and we believe that ENDOSCOPY 2014 will be of relevance to both.

ENDOSCOPY 2014's course's director, Dato' Prof KL Goh, has come up with an excellent two-day programme mix of lectures and live cases, with a stellar international faculty. He is aided by a dedicated team of enthusiastic young doctors and some senior consultants, all of whom have worked hard to ensure the success of this Workshop. The programme is preceded by a one-day workshop for GIAs, organised by the GIA Section, headed by Mr Philip Gisan from the Queen Elizabeth Hospital, Sabah.

The MSGH would also like to express its' gratitude to the overwhelming support that ENDOSCOPY 2014 has received from our many sponsors in the bio-medical industry. Their continued support for such CME activities is most encouraging.

Lastly, I would like to extend an invitation to ALL delegates to the Workshop dinner this Saturday. Live entertainment, excellent food and a golden opportunity to mingle with our international faculty are just some of the reasons why you must attend the dinner this year.

Wishing you a fruitful time over the next two days.

Welcome to Endoscopy 2014 with the theme "Best Tips in Therapeutic Endoscopy". We have assembled a top class faculty from throughout the world who will demonstrate to us their expertise in numerous sophisticated therapeutic endoscopy procedures.

I am grateful to Vice-Chancellor Professor Dato Dr Amin Jalaluddin who has kindly agreed to officiate at the opening of the workshop. My heartfelt thanks goes to Director of University Malaya Medical Centre, Dato Professor Ikram Ismail Shah who has so kindly and willingly facilitated the use of these beautiful facilities in Menara Selatan and also to the Dean Faculty of Medicine, Professor Adeeba Kamarulzaman for her unstinting support.

We are indeed honored and privileged to have as Distinguished" speaker. Professor Gregory Ginsberg is a highly esteemed professor and endoscopist is Director of Endoscopy at the University of Pennsylvania, Professor Ginsberg is the immediate Past President of the American Society of Gastrointestinal Endoscopy; a position that he held with great distinction from May 2011 until May 2012. A highly respected teacher Professor Ginsberg has co-authored a well known textbook of GI Endoscopy called Clinical Gastrointestinal Endoscopy and received ASGE Distinguished Educator Award in 2008.

We are also truly grateful to have such a varied and top-class faculty- Dr Mitsuhiro Kida (Tokyo, Japan), Professor Michael Bourke (Sydney, Australia), Dr Yutaka Saito (Tokyo, Japan), Professor James YW Lau (Hong Kong, China) and Professor Jin-Hong Kim from Ajou, Korea.

This year I am indeed proud to announce that we have three special sessions in addition to the GIA workshop. Firstly, I am particularly proud that the Young Consultants-GI Fellows Forum will be held on Friday 28th March. It is the first of its kind to address the needs and aspirations of this group of young consultants and fellows who represent the future of GI endoscopy in the country. We also truly proud to be able to host two very special workshops on the Sunday afternoon: The Asian NBI Group workshop with Professor James Lau (HK, China) as guest faculty and the Asian EUS Group workshop with Professor Mitsuhiro Kida as Guest faculty.

As always we have expanded our Gastrointestinal Assistants (GIA) workshop under the directorship of Mr Philip Gisan where in addition to the local GIA faculty we will have Sister Mary Bong, chief nurse manager at the Westmead Hospital, Sydney Australia and formerly Sister in charge of our Endoscopy unit here at the University of Malaya Medical Center and Ms Diana Jones from Brisbane, Australia as our special GIA guest faculty.

I hope as always you will enjoy and benefit from this year's workshop

YB Professor Dato' Dr Goh Khean Lee
Course Director
Endoscopy 2014

Objectives and Format of Workshop

.....

Emphasis on practical tips in therapeutic endoscopy: technique, indications limitations and pitfalls. In particular in this year's workshop we will be introducing several new sophisticated procedures which we want our participants to learn, appreciate their utility but at the same to be critical about its application and usefulness in our daily clinical practice.

Procedures will include direct cholangioscopy, endoscopic ultrasound, enhanced imaging endoscopy, endoscopic submucosal dissection and endoscopic mucosal resection of gastric and colonic neoplasms

Through sheer hard work and dedication, she rose very quickly to become Head nurse and Manager of the Endoscopy unit and is a very popular and well-liked nurse manager by doctors and colleagues at her Medical Centre.

Professor Dr Gregory Ginsberg

(Philadelphia, USA)

University of Malaya & Malaysian Society of Gastroenterology and Hepatology Distinguished Lecturer 2014

Citation by Dr Ho Shiao Hooi (Senior Lecturer and Consultant Gastroenterologist, University of Malaya)

Gregory Ginsberg is Professor of Medicine and Executive Director of endoscopy in the University of Pennsylvania Health System. He obtained his medical degree in Thomas Jefferson University School of Medicine and spent another 6 years in Georgetown University Medical Center in Washington where he completed his residency in Internal Medicine and fellowship training in Gastroenterology and Therapeutic Endoscopy. Following his zeal and passion for teaching and research, he took up the post of Assistant Professor of Medicine in University of Pennsylvania in 1993 and began his long and honorable journey in academic life and reaching his current positions in the university in the year 2005 and 2008 respectively.

Not only does he hold many important positions and portfolio in his faculty and university hospital, respected and admired by his peers, he was and is entrusted with many task outside his hospital as well. He is the heart and soul of many renowned gastroenterology societies like ACG, AGA and most of all, the ASGE. In the year 2011/2012, he headed the ASGE as President, a position he served with great distinction. He has won countless awards such as 2004 University of Pennsylvania “Luigi Mastroianni, Jr, Clinical Innovator Award of Excellence” award, “Top Doctors” award, “America’s Top Physicians” award, “2008 ASGE Distinguished Educator” award, etc. just to name a few.

A true clinician and academician at heart, he has over 150 peer-reviewed publications in many high-impact-factor-journals and sit in the editorial and reviewer board of many reputable journals. He is a highly sought-after speaker and was invited to speak and organize training workshop in many international platforms. For your information, he was also the invited faculty in our 2008 Endoscopy Workshop. His ongoing clinical research focuses on Barrett’s oesophagus, including EMR, RFA and other ablation techniques; GI cancers (in particular EMR); ERCP; EUS; enteral nutritional access, in particular direct percutaneous jejunal feeding tube placement (DPEJ) and natural orifice surgery.

Professor Ginsberg married his wife, Jane on 3rd of Sep 1988 and is blessed with 4 daughters. His career path in endoscopy was very much crafted since young. His father, who was also a gastroenterologist, loved to record his endoscopy work using the same video camera that he would use to film birthday parties and family events without switching the film. So, to his family, watching the “boring” home movies would intermittently bring out some of the “career-inspiring & beautiful” endoscopic video such as torrential bleeding peptic ulcer, fungating gastric cancer, obstructive colonic tumour, colonoscopy with fecal loading due to poor bowel preparation and etc. It is then not surprising that he pretty much made up his mind to go into gastroenterology as young as a sixth grader. A field he thought would offer the ideal blend of cognitive and procedural challenges. And time has proven that the decision he made 40 years ago was the correct one.

His mentor while he was a fellow at Georgetown University Medical Center, Dr. David Fleischer, pointed out that success in medicine is measured in three ways. “As a teacher, can you do good research? As a doctor, can you take good care of your patients? And as a person, can you have a family life? Prof. Ginsberg manages all three well.” He said.

Ladies and gentlemen, it is my singular honor and pleasure to introduce Professor Greg Ginsberg, a man who is head and shoulders above the rest in the field of GI endoscopy, as our Distinguished Speaker for ENDOSCOPY 2014.
